

## Moderna and Medison Pharma Partner to Commercialize Moderna's COVID-19 Vaccine Across Central Eastern Europe and Israel

June 7, 2021

CAMBRIDGE, Mass. & ZUG, Switzerland--(BUSINESS WIRE)--Jun. 7, 2021-- [Moderna, Inc.](#) (Nasdaq: MRNA), a biotechnology company pioneering messenger RNA (mRNA) therapeutics and vaccines and Medison Pharma, a leading commercial partner for highly innovative therapies in international markets, today announced a new agreement to commercialize the Moderna COVID-19 Vaccine across Central Eastern Europe and Israel.

The agreement covers the following countries: Poland, Czech Republic, Romania, Hungary, Bulgaria, Slovenia, Slovakia, Croatia, Estonia, Latvia, Lithuania, Serbia, Ukraine, Moldova, Albania, Bosnia and Herzegovina, Kosovo, North Macedonia, Montenegro, and Israel.

"We are excited to partner with Moderna in 20 markets, covering over 175 million lives across the entire Central Eastern Europe region and in Israel," said Meir Jakobsohn, Founder and CEO of Medison Pharma. "Moderna's breakthrough vaccine and Medison's international commercialization platform for highly innovative treatments, makes our partnership a natural fit."

"We appreciate this new partnership with Medison Pharma to ensure successful delivery of our mRNA COVID-19 vaccine to market," said Corinne Le Goff, Pharm.D., M.B.A., Chief Commercial Officer of Moderna. "Working together with our partners, we remain steadfast in our commitment to fighting the pandemic by delivering our vaccine to populations globally."

### About Medison Pharma

Medison is a global pharma company focusing on commercializing highly innovative therapies for patients in international markets.

Leveraging a track record of over 25 years and partnerships with leading biotech companies, Medison provides a complete spectrum of integrated services for companies interested in establishing presence in international markets.

Medison also runs a corporate venture arm with a dedicated research and evaluation team boasting deep scientific and commercial expertise.

For more information, visit [www.medisonpharma.com](http://www.medisonpharma.com).

### About Moderna

In 10 years since its inception, Moderna has transformed from a science research-stage company advancing programs in the field of messenger RNA (mRNA), to an enterprise with a diverse clinical portfolio of vaccines and therapeutics across six modalities, a broad intellectual property portfolio in areas including mRNA and lipid nanoparticle formulation, and an integrated manufacturing plant that allows for both clinical and commercial production at scale and at unprecedented speed. Moderna maintains alliances with a broad range of domestic and overseas government and commercial collaborators, which has allowed for the pursuit of both groundbreaking science and rapid scaling of manufacturing. Most recently, Moderna's capabilities have come together to allow the authorized use of one of the earliest and most-effective vaccines against the COVID-19 pandemic.

Moderna's mRNA platform builds on continuous advances in basic and applied mRNA science, delivery technology and manufacturing, and has allowed the development of therapeutics and vaccines for infectious diseases, immuno-oncology, rare diseases, cardiovascular diseases and auto-immune diseases. Today, 24 development programs are underway across these therapeutic areas, with 13 programs having entered the clinic. Moderna has been named a top biopharmaceutical employer by *Science* for the past six years. To learn more, visit [www.modernatx.com](http://www.modernatx.com).

### Moderna Forward Looking Statements

*This press release contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, as amended, including regarding an agreement between Moderna and Medison Pharma to commercialize the Moderna COVID-19 Vaccine (known as COVID-19 Vaccine Moderna outside the U.S.) in Central Eastern Europe and Israel. In some cases, forward-looking statements can be identified by terminology such as "will," "may," "should," "could," "expects," "intends," "plans," "aims," "anticipates," "believes," "estimates," "predicts," "potential," "continue," or the negative of these terms or other comparable terminology, although not all forward-looking statements contain these words. The forward-looking statements in this press release are neither promises nor guarantees, and you should not place undue reliance on these forward-looking statements because they involve known and unknown risks, uncertainties, and other factors, many of which are beyond Moderna's control and which could cause actual results to differ materially from those expressed or implied by these forward-looking statements. These risks, uncertainties, and other factors include, among others: the fact that there has never been a commercial product utilizing mRNA technology approved for use; the fact that the rapid response technology in use by Moderna is still being developed and implemented; the safety, tolerability and efficacy profile of the Moderna COVID-19 Vaccine observed to date may change adversely in ongoing analyses of trial data or subsequent to commercialization; despite having ongoing interactions with the FDA or other regulatory agencies, the FDA or such other regulatory agencies may not agree with Moderna's regulatory approval strategies, components of our filings, such as clinical trial designs, conduct and methodologies, or the sufficiency of data submitted; Moderna may encounter delays in meeting manufacturing or supply timelines or disruptions in its distribution plans for the Moderna COVID-19 Vaccine; whether and when any biologics license applications and/or emergency use authorization applications may be filed and ultimately approved by regulatory authorities; potential adverse impacts due to the global COVID-19 pandemic such as delays in regulatory review, manufacturing and clinical trials, supply chain interruptions, adverse effects on healthcare systems and disruption of the global economy; and those other risks and uncertainties described under the heading "Risk Factors" in Moderna's most recent Annual Report on Form 10-K filed with the U.S. Securities and Exchange Commission (SEC) and in subsequent filings made by Moderna with the SEC, which are available on the SEC's website at [www.sec.gov](http://www.sec.gov). Except as required by law, Moderna disclaims any intention or responsibility for updating or revising any forward-looking statements contained in this press release in the event of new information, future developments or otherwise. These forward-looking statements are based on Moderna's current*

*expectations and speak only as of the date hereof.*
